

WORLD FISH MIGRATION DAY

Happy FISH

**Connecting fish,
rivers and people**

April 21 - 2018 | #worldfishmigrationday

What is World Fish Migration Day

World Fish Migration Day is a one day event to create worldwide awareness of the importance of freshwater migratory fish and open rivers.

World Fish Migration Day is a one day event to create worldwide awareness of the importance of freshwater migratory fish and open rivers for the general public, students and their teachers, resource managers and engineers, and commercial and recreational anglers, as well as those individuals who influence public policy that affect rivers. It is a global initiative with activities organized to reach people from all over the world.
